EDUCATION

University of California, Berkeley Aug 2023 – Dec 2025
BA, Applied Mathematics; BA, Data Science *GPA: 3.86*
Cum Laude; Dean's List (Top 10% each semester); Transferred from UCLA (2021 – 2023)
Relevant Coursework: Econometrics, Data Inference & Decisions, Reproducible Data Science

PROFESSIONAL EXPERIENCE

Research Data Analyst & Project Manager Jan 2026 - Present
Collective Impact Data & Research Lab *Berkeley, CA*

- Designed a housing-instability risk report template adopted across San Mateo County's 21 jurisdictions, authoring 26 of its 32 visualizations in R from ACS, HUD, DataQuest, and commercial datasets.
- Cut per-report production time to 2 weeks by routinizing the research and analysis workflow; recruited and lead 4 undergraduate analysts through the countywide rollout.
- Promoted to project manager of a year-long, multi-phase county study; own roadmap and review cycles with county Department of Housing leadership, city housing staff, and the 21 Elements planning collaborative.
- Translate technical findings into anti-displacement policy recommendations that feed jurisdictions' state-required housing element fair-housing analyses.

Research Intern Jan 2026 – Apr 2026
Surveillance Technology Oversight Project *Remote*

- Conducted early-stage research on statistical reliability of big-data dragnet surveillance for upcoming report.

Technical Product & Data Lead Jan 2024 - Jan 2026
Rapid Reviews / Infectious Diseases *Berkeley, CA*

- Independently designed, built, and shipped the journal's first operational web app and database, serving as principal technical liaison to journal leadership for two years.
- Led 30+ undergraduates in iterative feature delivery, including AI-assisted peer-reviewer matching, conflict-of-interest flags, dynamic preprint cycles, a student badge system, and productivity dashboards.
- Scaled the global editorial network 8x to 1,500+ student editors across 12 countries and 4 continents, compressing the review cycle from months to weeks to enable 320+ published peer reviews.

Product Management Intern Jun 2025 - Aug 2025
American Civil Liberties Union (ACLU), National Office *New York City, NY*

- Supported the beta rollout of a national platform migration, transitioning the first 15 affiliate sites.
- Built Heap analytics dashboards to track KPIs, presented to the National Product and Engineering team.
- Authored national-to-affiliate technical documentation, ran QA tests, and coordinated issue resolution.

Associate Data Researcher Jan 2022 – Jun 2022
UCLA Sustainability Action Research *Los Angeles, CA*

- Designed a controlled experiment on dormitory HVAC energy use; synthesized multi-source sensor data to correlate heating/cooling degree days against standardized energy use. [Final Report]

SKILLS

Programming	Python, R, SQL, HTML/CSS
Analysis & Platforms	pandas, NumPy, scikit-learn, statsmodels, tidyverse, matplotlib, Jupyter, Quarto
Product & Ops	Heap, WordPress, Notion, GitHub, Airtable, Zenhub, Asana, Scrum, Agile
